Front End Developer

github.com/kelliepetersen · kelliepetersen.com

Passionate and results-oriented JavaScript & React developer with 3 years of experience designing and developing full-scale websites. Self-made experience in programming, freelancing and launching and running a US-based business. Proven efficiency with an ability to quickly learn, adapt and improvise.

EXPERIENCE

Parchot LLC / Co-Founder

2020, Claymont DE, USA (Remote)

- Early on, was involved in all stages of design, development and deployment.
- Developed business websites using a variety of tools and frameworks when suitable, including React, Gatsby, Express and PHP.
- Worked in a team environment following a SCRUM methodology.

Freelance Developer

2018 - 2019, Atlanta GA, USA

- Designed and developed websites for small businesses and individuals.
- Debugged, optimized and rebuilt existing websites made by other developers.
- Gained experience working with legacy PHP/WordPress code.
- Collaborated with designers to translate wireframes and mockups into real websites.
- Interacted with clients from across the USA in-person and online and took the time to understand their vision and goals.

SKILLS

- JavaScript (Vanilla, TypeScript, jQuery)
- React (CRA, Gatsby, Next)
- Node & Express
- MongoDB & Basic SQL
- npm, Gulp & Webpack
- CSS Frameworks (Material UI, Semantic, Bootstrap)
- CMS (WordPress, Strapi)
- Version Control (GitHub, GitLab)
- Testing with Jest & Enzyme
- Basic Linux Shell Scripting
- Basic Design Skills (Photoshop & Gimp, Inkscape & Illustrator)
